

LOKHIN WU

EXPERIENCE

Raise Your Edge · Full Stack Software Engineering Intern

May 2020 – August 2020

- Developed an iOS app using Swift and UIKit from the ground up to provide poker players with interactive training on the go
- Authored a drag and drop tool from scratch using Angular that allows content creators to easily organize poker ranges
- Built a poker game parser that takes game data from popular sites to allow players to analyze and get quizzed on previous games
- Redesigned and developed the entire user profile page to streamline user experience and improve appearance

IBM · Software Developer Intern

July 2019 – August 2019

- Created a challenge feature for the learning portals on the IBM Developer Skills Network, allowing users to test their understanding and compete
- Upgraded the learning portals' base software to the latest version by reconfiguring Docker images and rewriting Python codebase
- Implemented a new API endpoint to a Node.js application that returns details of a learner's progress in a certain course

IBM · Software Developer Intern

July 2018 – August 2019

- Created a customizable chatbot using Watson Assistant to communicate with learners and provide them with automated assistance, improving user experience
- Developed admin tools for the learning portals using Ruby on Rails and MongoDB, making site management more efficient
- Leveraged the Open edX API to create a course catalogue and enrollment page for learners

NVISION · Web Developer Intern

July 2018 – August 2019

- Collaborated with web designers to create fully responsive websites in order to meet client specifications
- Created a web-based note-taking application using React and a trivia game using React Native

Toronto Youth Network · Co-Founder

February 2017 – May 2019

- Spearheaded a team of fifteen individuals to hold career-building and networking events for youth in the Greater Toronto Area
- Reached out to companies to fundraise for events and created partnerships with other organizations to establish a centralized hub for youth events
